

Dear Friend of WHAG:

Nexstar Broadcasting Group, Inc., WHAG-TV's parent company, has a contract with DirecTV which gives them the authorization to carry our signal. They (DirecTV) are choosing not to do so in the Washington D.C. DMA. DirecTV has the right to carry our signal. If you desire, please contact them and express your concerns about their decisions to not carry WHAG-TV.

In the interim, you may want to install an antenna and be sure that it is capable of picking up our UHF digital signal. Be sure that it is pointed in the direction of Clear Spring, MD., the site of our transmitting tower, and you should be able to receive our station's programming over the air signal.

Thank you for watching WHAG-TV.

Sincerely,

Hugh J. Breslin, III
VP and General Manager
